November 2007

Corporate Fishing Charters has gone through a bit of a change over the last few months with a change in staff. These things happen in any company and we wish those that have left all the best for their future. Departures also mean that there are possibilities for others to step into the positions, so we are currently looking for staff to help out in the business so if you are interested give us a call or better still send me an email.

With the changes it has meant that I have looked into the direction of Corporate Fishing Charters and looked at the grass roots of this business. The company has been running for over fourteen years and during that time we have had some very loyal customers and operators. It is this that keeps me determined to look after you the angler. One does not have to have every operator on your books but it is important to have products that I know are good and provide you the angler a chance to catch that dream fish.

Destinations like Victoria, Flinders Island and the Northern Territory are prime areas of our knowledge and to these we add certain areas in Fiji and the Cook Islands and this will be our core business. We are also looking at adding some serious trout fishing in Tasmania and New Zealand in the near future. Other areas that we have on our books will not be forgotten and we are happy to assist you in these areas and will increase there profile in due course.

Specials

Come to ET's Sportfishing Lodge in late April with CFC on a 5day/5night trip and save \$500 per person added to this we will add a free night in Darwin to relax on the way over or back. With the cheap airfares available in advance this is a chance to experience a new destination catching Barra and Bluewater species like Spanish mackerel and GT's
Total Cost \$4,250 ex Darwin

Stay at The Edgewater Resort & Spa in the Cook Islands and get a second room for free. Great package available for two families to share this special, have a holiday in paradise and enjoy some great game fishing for all of the family.

Club Trips

This year we have set three dates in advance covering each of our great boats. The idea is to target the snapper, elephant fish and some family fishing as well. These days are always a great time out with regular friends and families, providing the perfect opportunity to have a family outing out catching some good fish.

The dates are included on the following sheet, and many book out early so give me a call.

Local Trips

Our skippers regularly keep us informed in their availability so if non of the dates on the following suit us give us a call so we can get you out on the bays having a relaxing day on the water.

Christmas Functions

Dates are filling fast to have your Christmas function as a fishing trip. What could be better than a day out fishing, a BBQ and a few drinks to celebrate the end of the working year?

CALL NOW.
